CUIR THEOLOGY AND PEACE

1. God as Herself Vulnerable provides freedom and peace to our bodies. This involves the mapping of one's own body territory, present in our violated, discriminated and tortured bodies.
2. God Herself Vulnerable lives not only in one's own, but is tattooed in many other bodies throughout the world. It means recognizing that violences are structural.

IS RECONCILIATION POSSIBLE?

Reconciliation will always be a challenge, as long as those who experience or experienced the violence are not held responsible, but rather an attempt is made to truly repair the damage and commit to not repeating the events.

A vibrant, stylized illustration of stationery. In the foreground, a white rectangular card is pinned to a pink notebook with a purple spiral binding. The card features the words "MUCHAS GRACIAS", "DANKE", and "THANK YOU" in bold, black, sans-serif font, stacked vertically. To the right of the text is a simple orange smiley face. The background is a collage of various items: a black paperclip, a grey paper airplane, yellow paperclips, a white notepad with blue and red lines, and a purple folder. The overall aesthetic is bright and cheerful.
